ences, and the  
these  
constructing  
all these past four years of education. The faculty at Enrico Fermi had a big hand in our metamorphosis.

We can recall, now that we are seniors, four years of strong friendships, that have grown from "hi's" casually exchanged in the hallways to close, solid relationships. These relationships have given us companionship as we have participated in the structured learning of the classroom, in the frenzied learning of activities, and in the often painful learning of maturity.

As we reminisce, we realize that we are not the

to travel and languages have attempted to increase our skills to communicate our thoughts and beliefs.

One outstanding landmark in our memories was the change in graduation requirements. New courses were added and the maintenance of a certain average was initiated. This latter policy was carried over to participation. The point is that we have achieved a great deal.

When we the class of 1991 leave upon graduation, we carry with us things of great value. Memories of friendships, academics, activities, everything — the memories of four glorious years to last a lifetime. We have a sense of accomplishment, and the satisfaction of completing a difficult year. We have achieved in the classroom, in the activities, in the often painful learning of maturity. We have grown into the young men of the future.

ENRICO FERMI HIGH SCHOOL

Mr. Seymour Schonberger

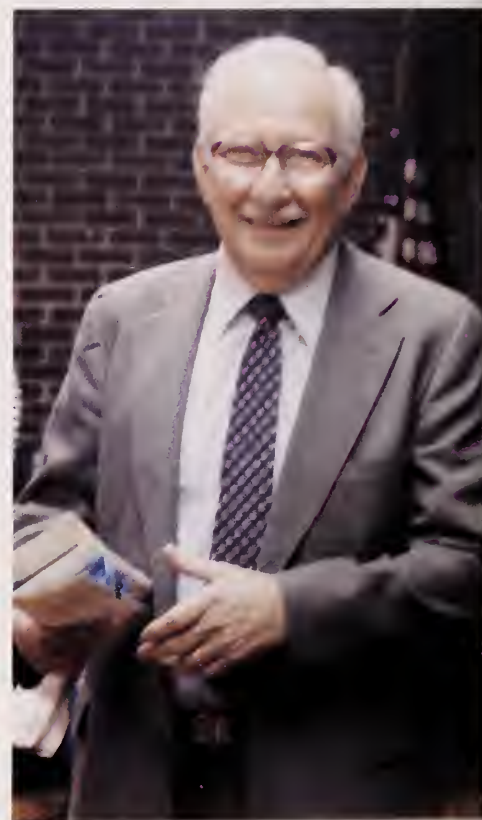

One would find it difficult to forget the kindly, cheerful face of Mr. Seymour Schonberger as he strolled the halls. His comforting presence was felt by many, especially the multitude of students whose high school days he made easier, and the numerous parents who profited from his counsel. To all, Mr. Schonberger dispensed discipline tempered by understanding and guidance based on experience. In 1985, Mr. Schonberger retired after thirty-six years of commitment to education.

Upon receiving his Bachelor's Degree in Music and his Master's Degree in Supervision of Music Education, Mr. Schonberger began his lengthy career as a Music Supervisor in Harlem, Montana. He used his musical training in schools in New London, East Hampton, and in Amity Regional High School, all in Connecticut. In 1969, Mr. Schonberger came to Enfield as a housemaster at Kosciuszko Junior High School. Five years later, he moved to Enrico Fermi where he functioned in the capacity of housemaster until his retirement in June of 1985.

Mr. Schonberger, we at Enrico Fermi would like to extend our thanks for your dedication to the student body. The graduating class of 1986 wish you health and happiness always.

"The Lord bless you and keep you.  
The Lord make His face shine upon you  
and be gracious to you.  
The Lord lift up His face upon you  
and give you peace."

(Num. 6:24-27)

# ATION

Mr. Robert Foley

This year, in June of 1986, Mr. Robert Foley will retire after thirty-three years of art education. We, the 1986 graduating class, would like to dedicate *Traces 1986* to this well-deserving man.

Mr. Foley received his teaching degree in 1952, and began teaching in Greenfield, Massachusetts. He later entered the United States Army, and after his discharge, he studied architecture at the University of Vienna in Vienna, Austria. In 1961, he embarked on his solid teaching career at Thomas Alcorn School in Enfield. When he was later transferred to Enfield High School he was given the responsibility of organizing the Art Department. Mr. Foley subsequently came to Enrico Fermi High School when it opened in 1971.

This patient and soft-spoken man has been the chairman of the Art Department here at Enrico Fermi since 1979. In this role, he has inspired countless numbers of students to develop their artistic skills and to enhance the talents they possess.

Mr. Robert Foley has set an example for others to follow, and for this well-rounded example, Mr. Foley, we wish you the best of everything.

"May the road rise up to meet you;  
May the wind be always at your back;  
May the sun shine bright upon your fields;  
And until we meet again, may God hold you  
in the palm of His hand."

(Irish Blessing)

One Last Glance 183

In my heart  
Is the seed of the tree  
Which will be me

Nourished by understanding  
Warmed by friends  
Fed by loved ones  
Matured by wisdom  
Tempered by tears.

# Memories of Academics

Side by side,  
Together . . . opposed.  
In spite of each other,  
Because of each other.

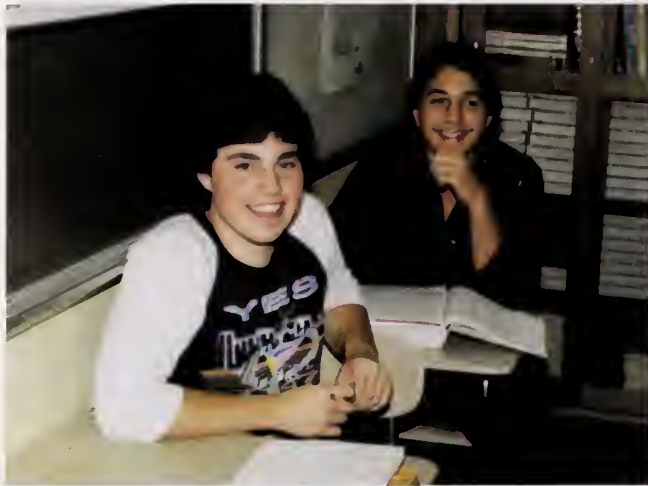

**You and I**

# Memories of Laughter

And in the sweetness of  
friendship let there be  
laughter, and sharing of  
pleasures.  
For in the dew of little  
things the heart finds its  
morning and is refreshed.

# Memories of Activities

Today,  
Time has stopped.

A minute is still a minute.  
An hour is still an hour.

And yet,

The past and the future  
Hang in perfect balance.  
All focused on the present.

# Memories of Every Day

But there *is* time  
Valuable and precious time  
To walk,  
    talk,  
        breathe.  
Time to touch,  
    taste,  
        care.  
To warm the child  
Who is cold and lonely.  
There is time to love  
I promise myself . . .  
    I will.

Class Officers: Paige Roberts; Secretary, Betsy LeBlanc; Vice President, Annemarie Vassalotti; Historian, Mindy Guiel; Director of Activities, Michele Ouellette; President, Carri Pawlyshyn; Treasurer.

The end of our four-year journey has quickly approached. The class of 1986 has made it through the rough times and shared the good times with friends and teachers that we will never forget. We have only to visualize the obstacles we overcame and the goals we achieved. We survived the "unforgettable" freshman year, always being looked upon as the youngest and frequently being the victim of a practical joke. During our sophomore year we faced head-on the new C- policy. It required that we academically achieve in order to participate in extracurricular activities or graduate with our class. In our Junior and Senior years, we had to face the challenge of choices: choice of college, choice of a

career or choice of a job. Now we look back at the barriers we encountered and see the reward of having learned, of having matured, and of having completed high school.

Through the years, we stuck together and made special friends with whose help and support we were able to achieve.

As class president and friend, I would like to express my deepest thanks for the good times that we have shared. Always remember that you can reach any goal as long as you never say "I can't" and think "I will."

Sincerely,  
Michele M. Ouellette

# Foreign Exchange Program

This year Enrico Fermi opened its arms once again to students from foreign countries. Students from Brazil, Germany, Japan, Sweden, and France have made their homes in Enfield for the 1985-1986 school year.

These students are living a unique experience. Being foreign students requires that they learn to live and to function in an environment different from their own. Maturity is also required of these students as they learn to adapt to a new culture. The people they come in contact with in turn benefit from the students' diverse backgrounds.

Enrico Fermi High School has had a tradition to have foreign students since the fall of 1972. We hope the tradition will be carried on in the years to come.

1. Catherine Menard, France; Cornelia Offergeld, Germany.
2. Madeline Karlsson, Sweden; Cassio Ferrigno, Brazil; Ako Hirose, Japan.

2

3

To go to a country with another culture and language is always a special experience, especially if one goes alone without knowing anyone at all. It's exciting and a bit scary, not knowing what to expect. Then, when it's time to go back home, it's sad to leave behind new family and friends.

My name is Madeleine Karlsson, and I'm one of the exchange students at Enrico Fermi this year. I'm from Sweden, where the schools are very different from Enrico Fermi. Students here in the United

States must go to school for twelve years; in Sweden, we go for only nine. We can't choose the subjects we wish to study; all students study the same things, choosing only the foreign language they would prefer and the arithmetic level most comfortable for them.

I became an exchange student because I wanted to experience a different culture. Our countries are very different, but I like the United States, and although I'll be going home in June, 1986, I'm sure I'll be back.

I wish for all mankind  
The sweet simple joy  
That we have found together.

I know that it will be.

And we shall celebrate  
We shall taste the wine  
And the fruit.

Celebrate  
the sunset and the sunrise  
the cold and the warm  
the sounds and the silences  
the voices of the children.

# Teachers Are Tremendous

At a time when the quality of public education is being scrutinized by many segments of the American public and the competency of teachers is held in criticism, we would like to express our gratitude to the teaching staff at Enrico Fermi High School.

For the past four years, each of us has received instruction in academics, business, the arts and sciences, family living, and industrial and vocational education from a competent and devoted staff. We have been given support and

guidance from professionals. We wish to thank all who have devoted their time and energies to helping us mature socially, emotionally, and academically. Our memories of staff members who have unselfishly given their time and knowledge will always be paramount, whether we enter the work world or continue our education at another institution.

Some of these teachers we would like to specifically thank on these pages. All deserve a vote of gratitude, and a round of applause.

"The teacher who walks in the shadow of the temple, among his followers, gives not of his wisdom but rather of his faith and his lovingness.

If he is indeed wise he does not bid you enter the house of his wisdom, but rather leads you to the threshold of your own mind."

If a student ever needs a teacher to depend on, Mr. Thomas Ouellette is available and willing to help, to instruct, or to guide.

Chairperson of the Social Studies Department since 1975, and a teacher at Enrico Fermi since the school's opening, Mr. Ouellette teaches objectively, with lectures aimed at increasing his students awareness of the needs of their community. A fair and willing teacher, he eagerly allows students to express their opinions, as well as respond to his.

Mr. Ouellette is one of the teachers Enrico Fermi can be proud of and one we are grateful to have as an instructor and mentor.

The modernization of the Business Department has been a main goal of department chairperson Mrs. Henrietta Montagna for the past fifteen years. The acquiring of modern business machines has increased the skills of business students, skills which are invaluable to those wishing a career in the business world.

A well-organized, astute, and skilled woman, Mrs. Montagna is an ideal role model for many future business leaders. Always ready to help in a crisis, her advice has many times further helped her students.

For your dedication, we thank you, Mrs. Montagna.

# A New Face at Fermi

Mr. Askin

A newcomer to the Foreign Language Department is Richard Askin. Straight from college, Mr. Askin began teaching at Cathedral High School in Springfield, Massachusetts. He has been in the Enfield School System for the past ten years. The first nine were at John F. Kennedy Junior High School. He teaches Spanish, which has been his ambition since high school.

Mr. Askin thinks highly of the staff at Enrico Fermi, and the Foreign Language Department is, in his opinion, outstanding. He finds the older students a refreshing change from the younger ones at John F. Kennedy Junior High. With Mr. Askin's help and experience the Foreign Language Department will remain strong in the future.

Mr. Flebotte

An annual staple of everyone's senior year is the magazine drive. This fund-raiser is put together with a lot of effort and time by its dedicated advisor, Mr. Donald Flebotte.

A teacher at Enrico Fermi since 1973, Mr. Flebotte has organized the magazine drive necessary for the boosting of the senior classes' funds since 1975.

He has also reached out and affected the lives of many of us through his enlightening instruction in psychology. Those of us who have benefited from it will long remember the "characteristics of motivated behavior" and "defense mechanisms."

In addition to the magazine drive, Mr. Flebotte has assisted Mr. Robert Knight in the organization of graduation ceremonies.

Mr. Flebotte deserves a round of applause and a big thank-you for his dedication to the senior class.

A superb teacher who brings to life the fun of learning, Mr. Andrew DePino has been an instructor of physics for the past five years. He teaches it with an enthusiasm and zest which clearly expresses the philosophy that physics should be fun to learn and easy to comprehend. His demonstrations and lectures are clear and concise because they are based on common, everyday things.

Also the advisor of the Physics Club, Mr. DePino is always there when he's needed, and is always the first to praise a correct solution, as well as to guide a baffled mind. Thank you, Mr. DePino for your knowledge, understanding, and enthusiasm.

Mr. DePino

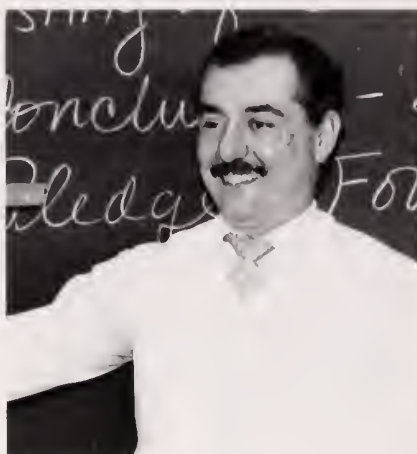

# New Faces At Fermi

Mr. John Stasio is one of the "new faces" at Enrico Fermi this year. He has been in the Enfield School System for fifteen years, and has taught at Henry Barnard Elementary School, and both Thaddeus Koskuszko and John F. Kennedy Junior High Schools prior to coming to Enrico Fermi. He is presently assigned to in-school suspension where he is a jack-of-all-trades who is attempting to teach students in a large variety of academic areas.

Mr. Stasio feels that "Enrico Fermi High School has an atmosphere that fertilizes the growth of friendship and helps students and teachers to self-actualize." We hope he will continue to think of Enrico Fermi as a super place, and remain for a long time. Welcome, Mr. Stasio.

Mr. Stasio

Mr. Giatrakis

"Enrico Fermi High School is a learning place; one is supposed to make mistakes. Learning from one's mistakes helps to better equip a person to deal with society."

These words of wisdom come from Mr. George Giatrakis, a newcomer to the Social Sciences Department.

A teacher of Russian History and American History, Mr. Giatrakis comes to Enrico Fermi from John F. Kennedy Junior High School. Also formerly of Thaddeus Koskuszko Junior High School, he has been in the Enfield School System for fifteen years.

Mr. Giatrakis has nothing but nice things to say about Enrico Fermi. He feels that the students have a good attitude. "I see a different set of priorities in the older kids — that's good."

We here at Enrico Fermi are proud to boast a fine new teacher, and we hope he continues to be enthusiastic about our school and its student body.

Mr. Mercik

Mr. Raymond Mercik is a very familiar face around Enrico Fermi. Everyone knows "El Jefe" with his cheerful and distinctive laugh. A teacher at Enrico Fermi and chairperson of the Foreign Language Department since the school's opening, his perkiness makes his Spanish classes stimulating. It is impossible not to learn and difficult not to enjoy it.

For the past three years, Mr. Mercik has organized a program of student sponsorship for three children through the Christian Children's Fund. He has also made comfortable and secure the lives of the foreign exchange students, and directed the Foreign Exchange Program since Enrico Fermi opened.

Mr. Mercik deserves a round of applause for brightening the lives of others.

Mrs. Cathy LaTaille has always been an excellent source of help and instruction for her students. She has taught mathematics at Enrico Fermi for many years, and consistently expends time and energy insuring each individual gains competency in her area. If one explanation is not adequate, she readily rephrases, rediagrams, and resolves.

A vivacious woman, Mrs. LaTaille is willing to listen and try to help solve any problem, be it in computers, arithmetic, or life. All of us who have been fortunate enough to have had her as a teacher will always appreciate her skill, knowledge, and patience.

# A New Face At Fermi

Taking over as housemaster of Blue House in the 1985-1986 school year was Mr. William Cutler.

Mr. Cutler has worked in the Enfield School System for many years. He was a special education teacher at Thaddeus Kosciuszko Junior High School, Harriet Beecher Stowe Elementary School, and Eli Whitney Elementary School before becoming a housemaster at Thaddeus Kosciuszko Junior High School.

For the past three years he was a special education teacher at John F. Kennedy Junior High School.

Mr. Cutler is very comfortable at Enrico Fermi and already has new projects in mind, such as improving the co-ordination of in-school activities. A strong believer in communication, he is striving to become acquainted with the student body. His hobbies include woodworking and making lampshades; much of his work is displayed in his office.

Ms. Monica de Haan

Ms. Monica de Haan has been a familiar face over the past eight years in the classroom, at school functions, and in Seminar 33. Countless students have increased their English skills under her tutelage, and have profited from the individual guidance she so willingly gives. In the past, Ms. de Haan was the advisor of the *Traces* yearbook for six years and was responsible for pushing the yearbook staff to meet deadlines. Her hard work can be seen in past issues of *Traces*, where her perseverance for nothing but the best is clearly visible.

Ms. de Haan, this is a thank-you that is well deserved. Your hard work and dedication are appreciated.

Having been a teacher of science at Enrico Fermi for fifteen years, Mr. Francis Rago has influenced countless students. Those of us who have been fortunate enough to have received instruction in biology from him will testify to his skill as a teacher as well as the unlimited energy he puts into insuring we are learners.

In addition to his teaching, Mr. Rago has been actively involved in C.R.O.P., a world hunger organization. This interest began ten years ago when the World Hunger Conference was held at Enrico Fermi. Through his participation he has made us acutely aware of the needs of others. For the past five years he also has organized and advised Peer Counselors and Peer Educators in an effort to make the process of becoming adults easier for us all. His active involvement in both of these programs has aided many and earned our admiration.

# Activities and Clubs Foster Learning Outside the Classroom.

This year, a vast number of student activities abound in Enrico Fermi High School. There was a club, organization, or sport to meet almost all student needs and interests. Students could elect to ski, to bowl, or become involved in politics, student government, or peer counseling. Those with interests in the arts could participate in band, chorus, Lamplighters, and a variety of

challenging activities. These activities, advised by Enrico Fermi faculty or adult volunteers, attempted to make the students well-rounded. Responsibility and maturity developed as students learned to interact with one another. The activities prodded student involvement and boosted school spirit. We were proud to boast such a fine, diverse program.

# Student Faculty Senate Award Winners

"Par Excellence" describes the activities undertaken by the '85-'86 Student Faculty Senate. In September, the Senate received the Governor's Youth Action Award for its successful activities over the past two years, an impressive beginning for an excellent year. With two Spirit Weeks, a two-day student exchange with Rockville High School, and fine fund-raising, the year was constantly a busy one. Resources raised during the year include \$242.43 donated to Unicef, 928 perishables and \$280.17 given to the Enfield Food Shelf from the Thanksgiving food drive, and a donation of \$1400 for the Toys for Tots campaign, a service which distributes a gift or two to the poorer children of the community. This contribution was the largest monetary contribution of any organization in Enfield, earning them an award from the Enfield Police Department.

**First row:** Trevor Sparks, Katie LeBlanc, Marc Gunther, Barb Dornato, Jana Russell, Kelly Woods, Kathy Banahan, Kelly Callahan, Michele Ouellette, Laura Graczewski, Celeste Amaral, Annemarie Vassalotti, Tim White.

# Pep Rallies Esprit de Corps

Long after thoughts of crowded hallways, ringing bells, semester exams, Scholastic Aptitude Tests and cafeteria lunches have ceased, the jocularity and companionship experienced at high school pep rallies will remain a fond memory. Here the harmony of spirit promoted friendship and united us. Here we felt anticipation, hope and laughter.

*All must not be earnest in a world likes ours."*

# Christmas Show

## The Spirit of Peace, Memories of Christmas

Christmas vacation commenced with the annual Christmas Show skillfully performed by Fermi's Jazz Band and Fermi's Mixed Chorus. Christmas carols and jazz music reverberated throughout Fermi's halls and heightened all our Christmas spirit.

"Peace on earth, good will to men," became a thought, a dream, and, perhaps for some, a reality.

# Homecoming: Reunion in the Rain

As is traditional, Homecoming was ushered in by the crowning of the queen at the annual Homecoming Dance. Queen Pam Zeph reigned over her subjects from 7:30 until 10:30. Saturday dawned cold and rainy but the bleak weather did not dampen the spirit of the Falcon fans. The exuberant crowd lined Hazard Avenue and North Maple Street as saturated floats "sailed by." The fired-up Falcons plowed the Hartford Public Owls through the mud to a glorious victory, which only demonstrates that the weather need not be a deterrent to a good time.

# National Honor Society

In a stable and quiet mood, the Enrico Fermi chapter of the National Honor Society, Sabath M. Nigro, added honor and distinction to the everyday activities of the student body and town community.

To be invited to admission, prospective juniors must have attained a minimum B+ average throughout their high school years. Accepted candidates were then inducted in a solemn ceremony where all took a pledge of service and honor to the school and to society.

In addition to having devoted fifteen hours to volunteer work, members sold candy, held car washes, and paid dues to supplement a scholarship fund. Awards were presented in June to members with exceptional commitment to community service.

With millions of active and former members across the country, membership in the National Honor Society is a strong, meaningful reference to a person's character and is a reflection of four years of successful academic achievement.

## Lamplighters

### A Short Step from Broadway

In December, the Lamplighters produced Neil Simon's comedy, "Plaza Suite." The set used for the show was a spectacular replica of an actual suite at the Plaza in New York City.

The cast was comprised of both new members as well as several veterans. Unfortunately, their scheduled opening night was cancelled due to inclement weather. However, their one performance was comparable to a show at Stage West. In all, the cast and crew can be proud of a job well done.

# Distributive Education Club

## Students Win Place in Nationals

DECA opened the 1985-86 school year with major changes in the school store. Carpeting, mini-blinds, track lights, and plants are some of the added features that have modernized the student-operated store.

Students held several fund-raisers which included candy sales and publication of the Thanksgiving Football game program. The proceeds assisted in several activities throughout the year. One of these was an Installation Banquet for incoming juniors. Additional funds provided for attendance at the North Atlantic Regional Conference in Boston held at the Marriot Hotel in Copley Square, as well as for the preparation of fruit baskets for the local nursing homes.

The final event of the year was the Employer Appreciation Banquet held in May at the Mountain Laurel Restaurant, where the students were recognized for their efforts made at their work stations. The luncheon also provided an excellent opportunity to congratulate outstanding members of the DECA program and to recognize the Store of the year and Student of the Year.

Future Business Leaders of America (FBLA) opened the 1985-86 school year with a Business Teacher Appreciation Breakfast. After a strong winter fundraiser, they officially adopted an entire village of children in El Salvador, sending in monthly donations through the "Save the Children" program. Much of the season was spent preparing for Area Competition, held at Enrico Fermi in March. Winners from among three hundred students went on to compete at the state level in April.

Throughout the year, FBLA enlightened the lives of the residents of the Enfield Nursing Home, sharing with them celebrations of Halloween, Christmas, Valentine's Day, and Easter. The Business Student of the Month Award was also awarded throughout the year, and a \$300 scholarship was awarded to one outstanding student at the annual Awards and Appreciation Banquet held in May.

## Model U.N.

Enrico Fermi is one of twenty-four Hartford-area high schools that participated in the Model U.N., an activity that has proliferated across the country. Each school represented one or more countries in a mock United Nations forum over a weekend, debating political, economic, and humanitarian issues. In preparation for that event, students researched their countries extensively and practiced representing that country, since they argued for and/or defend their country's opinions. To further help in this endeavor, the students traveled to New York to meet with the officials of their chosen countries at that country's mission to the United Nations. During these small meetings, factual responses were recorded second to emotional ones. In the 1985-86 school year, Enrico Fermi represented West Germany, Poland, and Morocco.

# Marching Band

## Clouds Poured But Band Shined

The band's busy school calendar commenced with ten students participating in the Connecticut Music Educators Association Eastern Regional Concert, held at the University of Connecticut. Later, at both the Veterans Day and Homecoming day parades, members of the band precision marched and played despite the constant rain. After the Christmas holiday, the band was second runner-up in the Class "A" division at the invitational parade of Bloomfield's 250th Anniversary. The band also lent its talents to the St. Patrick's Day and Memorial Day parades in Holyoke and Hartford. Two members were selected for the first annual University of Massachusetts All Senior Honor Band. Senior Cathy Plourde was then invited to play in the Youth of America Band, which toured Europe during the month of July. While always performing at Fermi's football games and pep rallies, the band continued to prove itself to be a prestigious paragon of the high school concert/marching band.

# Concert Choir

Led by Mr. Joseph Giangrosso, Enrico Fermi's Concert Choir once again entertained and delighted many throughout the area with their melody and harmony. Choir is not all fun. It is a combination of work, practice and cooperative effort. The concert season began this year at the Elks Annual Memorial Service. Shortly after, they joined with mixed choral groups from throughout Enfield for the Enfield Tree Lighting Carol Sing at townhall. In mid-December they sang at Enfield Square and held their Winter Concert and Christmas Show in Fermi's auditorium. In January the choir entertained the Enfield Women's Club at Ramada Inn and in March participated in "Thank You For the Music" at Mountain Laurel. They also sang at the National Honor Society Induction Ceremony. The annual Spring Concert and Coffee Hour in April offered many the opportunity for soloist performances as well as for ensemble singing. Finally, Choir combined with Chorus to add song to the 1986 commencement ceremony at Fermi in June.

## As Schools Match Wits

Students participating in this club represent Enrico Fermi on the Springfield, Massachusetts television station's show pitting two area high schools against each other in a challenge of the mind. Intellect figured intensely during the game, as students fielded questions from diverse topics such as literature, history, sports, art, and music.

## Student Legislative Intern Program

After thorough preparation, the students involved in the Internship Program observed the Connecticut state legislature every week during the Spring of 1986. In the exciting atmosphere each student was paired with a representative to work with and learn from. Indeed, as the school year closed, all participants gained new insight and new interest in the legislative process.

1. Mr. Dolley led the "As Schools Match Wits" club through a steady year.
2. **As Schools Match Wits:** Enzo Reale, Russ Flugel, Joe Bennett, Ellen Binnenkade.

# H.E.R.O.

## Café Rendezvous Fermi Muncheonette

For yet another successful year, the members of the Home Economics Related Occupations (H.E.R.O.) Club satisfied the gustatory delights of many throughout the Enfield area. Café Rendezvous served dinner to the public each Wednesday during the spring months. Throughout the year the Muncheonette fed hungry Enrico Fermi students breakfast and faculty members special-order lunches. Banquets catered by the club included Homecoming Breakfast, DECA Installation, Student Faculty Senate Breakfast, FBLA Regional Banquet, FBLA Awards Banquet, and a tea held for school volunteers. H.E.R.O. also combined its talents with the Lamplighters to produce a dinner theater for the first time at Enrico Fermi.

Students joined other H.E.R.O. club members across the state in competition at Manchester Community College. Seniors Teresa Bosco, state president of H.E.R.O., and Janine Schneider also attended the national convention in Utah. All senior club members traveled to the International Restaurant Show in New York City. The variety of activities and caliber of cuisine once again demonstrated why the members of H.E.R.O. were honored for operating one of the ten best student-run restaurants in the nation.

# Traces

## 1986

### Perservance Rewarded

In its essence, *Traces 1986* chronicles the 1985-'86 school year. It was the endeavor of the yearbook staff to present the memories of the year shared by students and faculty alike. Pictures epitomizing everyday life at Enrico Fermi were included in the hope that all would be able to recognize the action, feeling, and motivation in them. Emotion and action were also preserved in writing. New realms of remembrance were opened as thoughts became dimensioned on the written page. Emerging was the personality of a school and of a community. The 1985-'86 *Traces* yearbook staff presents to you our collection of the everyday memories of the year.

# Peer Counselors

In its seventh year at Enrico Fermi, the Peer Counseling program experienced a tremendous growth of student interest. A fall recruitment campaign tripled membership, enabling this group to expand its services. All members volunteered and were trained after school for four months in preparation for Spring counseling with other high school students. The need for counselors for younger children led to a new focus, peer educating. Slightly different training in this area was aimed at enabling the high school volunteer to meaningfully communicate with fifth or sixth graders at a local elementary school.

Peer Counseling and Peer Educating were conducted in coordination with the Enfield People for Youth Organization, and were similar to other peer involvement programs on the East Coast.

# Investment Club

The Investment Club at Enrico Fermi began in 1985 with a group of students who were interested in learning the fundamentals of stocks and bonds. Proceeds of fund raisers were invested and traded. This year profits were used to present a scholarship to a graduating student aspiring to a career in investment.

# Physics Club

## Learning Through Experience

The members of the Physics Club were typically students who wished to pursue careers in the science or engineering fields. During club meetings, members constructed and tested new experiments and demonstrations for the physics classes. Some proj-

ects included using a laser oscilloscope, determining the speed of a cannon using computer techniques, and creating a dancing flame demonstration. Later efforts were devoted to more extensive usage of computer interfacing for lab experiments.

## German Club

The German Club operated with a unique goal: to understand and appreciate the German culture. Expanding the group's knowledge of Germany were music, films, and literature.

1. Sally Sroka shows Michael McNulty the strategic position of Berlin.

2. **German Club:**

**First row:** Robert Winters, Jeff Ruggiero, Shari Lizotte, Gordon Murphy, Samara Perdue.

**Second row:** Mr. Wood, Cornelia Offergeld, Christopher Cheshul, Catherine Ménard, Madeleine Karlsson, Barbara Gilly, Sally Sroka.

## Computer Club

Computer Club members utilized the computer for a variety of learning experiences. Copying information disks for teachers, sharing new program techniques, and challenging one another to a computer game were typical activities in which they were engaged. As the year progressed, they strived to master the computer skills they felt necessary for their futures.

3. **Computer Club:**

**First row:** John Sheridan, Charlie Aldo, Mike Jones.

**Second row:** Mr. Duffy, Scott Dayton, Scott Malin, Jeff Nicholas.

**Missing:** Mrs. Varanka.

4. John Sheridan displays his avant-garde graphics to Charlie Aldo and Scott Malin.

# Bowling

Each Monday afternoon, the Enrico Fermi Bowling League met at Shaker Bowl in East Longmeadow, Massachusetts for some keen intramural competition. Consisting of eight two-person teams, the league bowlers contended for team trophies as well as for individual prizes. Winning teams from each of the two rounds consisted of Rich Stroiney and Dave Stroiney and Robert Keeler and Joe Murray.

## 1. Bowling Club:

**First row:** Rich Stroiney, Dean Fortin.

**Second row:** Mrs. DeVlyder, Jim Duff, Joe Murray, Dave Stroiney, Rob Keeler, Todd Clukey, Sean Sweeney, Todd Michael, Rob Lambert, Mrs. Shea.

**Missing:** Mr. Gahm, Mr. Laudato.

2. Todd Clukey is making an intense effort to execute a proper delivery.
3. Dean Fortin lines his ball against the floor markers in the alley.
4. Concentration and coordination are key ingredients in good bowling. Ron Lambert, who attained the second highest average in the league, demonstrates both of these.

3

4

# Ski Club

Ski Club members improved and enjoyed their skiing the smart way — by saving money each time they went. As a group, they were offered lower lift tickets, discounts at local ski shops, and free films on skiing technique. Members also maintained the condition of their ski equipment during the maintenance workshops offered.

A weekend day trip was spent at Killington as well as at Berkshire East where members skied every Friday night. Because of the fun, the excitement, and the companionship, the ski club provided a friendly atmosphere to sharpen the skiing skills of even the most adamant bunny-slope skier.

# Future Nurses

The Future Nurses Club welcomed both male and female students considering a career in any branch of Allied health or medicine. A major part of the club's time was devoted to the raising of money for scholarships granted to graduates in June. Fund-raisers included carnation sales at Thanksgiving and other special occasions, and car washes held periodically around town. In addition, many members volunteered their time to help the workers and residents of the Enfield Nursing Home. On-the-job experience there

provided a valuable foundation for truly understanding patients and their needs.

At Enrico Fermi, knowledge and confidence were established by exploring health careers through discussion and by gaining information on colleges and educational programs available. A part of Enrico Fermi since the school opened, the club continued to achieve success in preparing serious students for a meaningful and rewarding career in health professions.

## Fall Sports

The interscholastic athletic program at Enrico Fermi High School offered an opportunity for female and male students to actively participate in competitive sports. During the fall season, varsity teams in girls' and boys' soccer, girls' and boys' cross country, football, girls' swimming, volleyball and field hockey competed throughout Connecticut. Junior varsity teams in football, soccer, field hockey, and volleyball also enabled younger,

less experienced players to develop and sharpen their skills. Of special note this year was the Varsity Volleyball team which was the C.C.C. East Champion and placed sixth in the state of Connecticut, L-Division, and the Varsity Field Hockey team, which was the C.C.C. East Champion and ranked fifth in the state of Connecticut, L-Division.

To all our student athletes we owe a **thank you** for the hours of effort expended to represent Enrico Fermi High School.

# Varsity Football

## A Comeback Season

The 1985 Fermi Falcon's Football Team finished their season with a 5-6 record. At first glance one might assume that the club was just another average athletic team. However, when one considers that the team won as many games this past season as they have over the three previous campaigns combined, one can tell that Fermi Football made great strides in 1985. Also, the fact that Fermi's new-found success was accomplished with a very young and inexperienced team makes the record that much more impressive. Fermi's football team proved in 1985 that hard work, dedication, loyalty, pride, and commitment can and do result in success.

# Varsity Boys' Soccer

## Sportsmanship Amid Strife

The 1985 Boys' Soccer Team began a new trend at Enrico Fermi High School: work as hard as you can regardless of the situation; compete until the final whistle. This philosophy benefitted team members as well as non-team members. Sportsmanship and the discipline it entailed resulted in an experience that profited all.

Members of the Enrico Fermi Soccer Team continually strived against all obstacles. They offered fair and worthy competition to all opponents. Unfortunately, the team suffered from multiple player injuries during the season which further hampered many attempts at victory.

# Varsity Girls' Soccer

## Success Yields New Outlook

Although the girls' soccer team has only been active for three seasons, this year has seen a marked improvement. This progress reflects the fantastic coaching of Mr. Chapman coupled with the dedication of all team members. The team missed qualifying for the state tournament by only one game.

In terms of team spirit and improvement the Fermi Girls' Varsity Soccer Team won first place by far!

### Girls' Soccer:

# Boys' Cross Country Young Team Learns Ropes

This year's young cross country team was headed by its only senior Jerry Ceniglio. Despite a 0-7 record, prospects are encouraging for Enrico Fermi in the future. Throughout the season, times in races improved and all runners developed endurance, determination and long distance running skills.

## Boys' Cross Country Team:

**First row:** Troy Wingen, Eric Eastham, Rich Stroiney, Jerry Ceniglio; Captain, Mike Guilford; Captain, Dan Tiegan.

## C.C.C. East Champions

The 1985-86 Enrico Fermi field hockey team continued its tradition of excellence. This year's team won the C.C.C. East title, with Coach Rosemary Sullivan named Class L Field Hockey Coach of the Year. The team ranked fifth in the L Division of schools, and, for the fifth consecutive year, qualified for the state tournament. Sue Mercik was named to second team All-State. Congratulations to an extraordinary team on their superior talents.

## Girls' Cross Country

### Revival of Interest

The 1985-1986 Girls' Cross Country team attracted a larger number of runners than in previous years. The girls worked hard and pushed themselves at each meet. The biggest downfall was the low number of girls running due to injuries. The team was able to keep its spirits in spite of only one win, and 1985-86 was an exciting season. The only senior, Paige Roberts, was captain, and freshman Allison Johnson was elected Most Valuable Player.

# Varsity Volleyball C.C.C. East Champions

For the second consecutive year, the Varsity Volleyball Team won the CCC East Champions banner. They qualified for state competition and entered the quarterfinals, finishing sixth in the state of Connecticut, L-Division. Miss Carbone feels that the group of girls that went all the way to the quarterfinals were the most outstanding she had ever coached. All members of the 1985-1986 Volleyball Team demonstrated teamwork, cooperation, and competitiveness. Noticeable among them were most valuable players Kathy Hoinoski and Lisa Cote.

## Girls' Swimming Single Senior Leads Young Team

With Jackie Fenton the only senior on this year's team, the swim team's record was two wins. Despite this, the girls practiced hard, competed well, and gave their utmost. Twenty-two underclassmen are returning in 1986, and it should be a very good year.

## Winter Sports

When the raw New England weather drives participants and spectators alike from the exposed playing fields, Enrico Fermi offers to both an assortment of winter interscholastic sports. Athletes are now found active on the court, the mat, the ice or in the pool, while the student body, their parents, and their friends are provided numerous options for afternoon and evening enjoyment.

In the winter of 1985-1986, varsity teams in boys' and girls' basketball, wrestling, ice hockey and boys' swimming offered to many an alternative to more sedate activities.

The exuberant Fermi cheerleaders moved from the football fields to the basketball court where they continued to enliven and encourage players and fans. Junior varsity teams in girls' and boys' basketball served as training ground for future varsity players. They in turn were encouraged by an accomplished and spirited junior varsity cheerleading squad.

For the hours of practice and the cooperative effort of our winter sports athletes, we are grateful. They have contributed to our everyday memories at Enrico Fermi High School.

## Cheerleading Champs Again

The 1985-'86 school year was a successful one for the Enrico Fermi Cheerleading Squad. During the summer break, the cheerleaders attended camp and returned to Enrico Fermi with a Grand Champion trophy. In addition, they were named the Most Spirited Squad.

A new dimension to the squad — the addition of male cheerleaders — highlighted the year. Now, talented males and females cheer Fermi's teams to victory throughout the year. We'd like to congratulate the cheerleaders for a job well done.

## Teamwork Reaps Rewards

The 1985-'86 Boys' Varsity Basketball team, led by captain Bruce Beckford, provided exciting games for all spectators. One highlight was their second match against the Enfield Raiders. After losing their first game against the Raiders, the Falcons came from behind, won the game, and knocked Enfield out of tournament competition. Southington was also deprived of a spot in the state tournament after its defeat by the Falcons.

The most rewarding game of the season was against number one-ranked Hartford Public. Although it was not a win for Enrico Fermi, Hartford had to play hard to keep ahead. Todd Tweeddale was high scorer of the season with an 8.9 game point average. Teamwork figured prominently in this season.

# Girls' Basketball

## Team Perserves Despite Frustrating Season

Senior co-captains Lisa Borkoski and Debbie Kearney led the girls' basketball team through a particularly trying season. Though frustrated by many losses, the team always played their best to the final buzzer. The large number of one-point losses certainly proved that the players performed well in each of the games. The players' desire and determination to do their best carried the young team through the season, and provided each member with the pride of having contributed to a unified effort to succeed.

# Ice Hockey

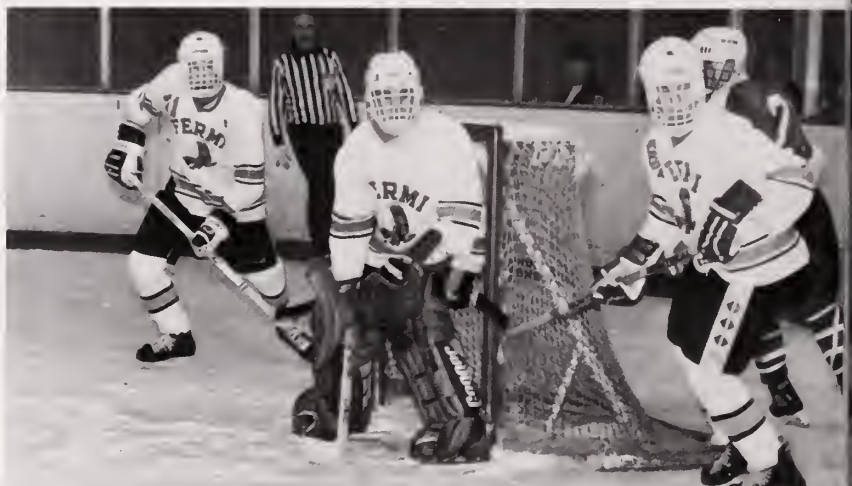

## Dedication Pays Off Many Ways

The 1985-1986 ice hockey season was a very successful one for the Enrico Fermi High School Team.

All players involved made significant improvements in both their fundamental skills and tactics. In addition, new friendships were formed and old ones strengthened. In summary, this year's team reflected many positive aspects of sports; dedication, loyalty, sportsmanship, and courage.

**First row:** Scott Ritchotte, Bob Siedel, Scott Grenough, Steve Degregorio; Captain, Peter Smith; Captain, Tim White; Captain, Ron Emrick, Andy Perkin, Dana Riley.

# Wrestling

## Hard Work Earns Place in States

The 1985-86 Falcon wrestling season began with a young and inexperienced team. Vying for the Central Connecticut Conference East League title, the grapplers showed great promise and success during the season. The hard work and dedication paid off as the Fermi Falcons placed 6th in the Class "L" Championships led by:

State Champion — José Navarro (105 lbs.)

2nd Place — Co-Captain Mike Dobrzycki 9 (119 lbs.)

3rd Place — Co-Captain Mike Beaudry (126 lbs.)

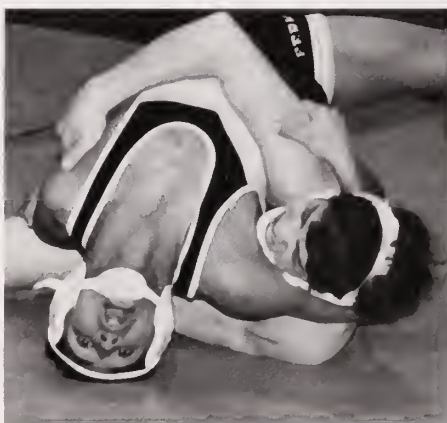

4th Place — Don Friday (112 lbs.)

5th Place — Ra Ben (98 lbs.)

The pinnacle of the season was José Navarro winning the State Open Championship.

## Swimmers To States

Beset by illness during the flu season, the boys' swimming team competed at a disadvantage during the 1985-1986 season. Led by senior co-captains Rick Mormino and Mike Okon, it was still able to win four of its scheduled meets. Although the season saw no school records broken, many swimmers did qualify for the state Class "L" championships. Mike Okon qualified for the 200 yard individual medley and 100 yard breaststroke, while Pete Miko qualified for the fifty yard backstroke. Swimmers Rick Mormino, Pete Miko, Mike Okon, and Alan Rubacha competed in the 400 yard freestyle relay, while the 200 yard medley team was composed of Rick Mormino, Pete Miko, Mike Okon, and Joe Amster. Tom Condon represented Enrico Fermi in diving competition.

Chris Grenier for his patience and his photos of activities and events.

Marc Grenier for the interesting and varied underclass pictures.

Kathy Carbone for her footwork and advice on sports copy and captions.

All coaches, club advisors, and sports participants who willingly gave copy, wrote captions and supplied photographs.

The staff of the 1986 Traces wishes to express its sincerest gratitude to the following people who willingly offered assistance, advice, and endless encouragement:

Larry Grenier — for his ideas on design, layout, photographs, and potpourri of suggestions.

Denny Galvin for his knowledge, instructions, correction and time.

“ . . . sometimes, when we reach for the stars, we fall short . . . but we must pick ourselves up again and press on despite the pain . . . man will continue his conquest of space, to reach out for new goals and greater achievements . . . ”
